

## MASTER THESIS REVIEW

**Author:** SHAMSAN Afnan Ahmed Mohammed

**Thesis:**

The effect of Conflict on Female Labor Force Participation.

**Reviewer:** Maria Sassi

**Institution of Reviewer:** University of Pavia

### Content

The aim of the thesis is relevant in the literature on conflict where there is a lack of consensus to whether conflicts positively or negatively influence women's decision to work. The structure is appropriate. The method adopted, DD approach, is appropriate and the candidate was able to highlight the limitations in its application. The empirical analysis is well developed.

### Literature and references

The relevant literature is mentioned.

### Formal requirements

The formal requirements are respected. However, tables should have a homogeneous style.

### Topics for discussion

Discussion of results considering the literature.

Major limitations of the study and how they affected the results achieved.

### Overall evaluation and proposed grade

The study is well developed in all its parts.

**I do recommend the thesis for defense with grade A.**
