

Supervisor's report on diploma thesis

Author of the thesis: SELMA ZILIĆ

Title of the thesis: Purification of recombinant proteins from yeast expression system

Serial no.	Evaluation criteria	Points (0-5)
1	Operational activity	3
2	Interest in the thesis topic (frequency of the discussion with the supervisor, knowledge of relevant literature)	3
3	Experimental skills	2
4	Accuracy and reliability	1
5	Self-planning of experiments	1
6	Evaluation and interpretation of experimental results	1
7	Self-activity in writing of the thesis	5
Points total		16

Max. 35

Commentaries on the thesis, remarks and questions

Selma showed great motivation for completion of the thesis, even though her knowledge of the field remained limited. She lacked understanding the principles of conducted experiments and had difficulty to learn basic laboratory skills. On the other hand, she proved that she was able to find relevant information in the literature and acted independently in the process of writing the thesis.

Conclusion: recommended for defense

Date: May 4, 2010
