

Průběh obhajoby diplomové práce:

First the student presented the aims and key findings of his thesis. Then the reviews of the supervisor and opponent were read. Q/A followed. During the discussion, the following topics were covered:

- How is the work of NGOs generally being perceived in the community; paternalistic approach and the limitations; the complementary services to the weak government
- Methods of evaluation of the work of the NGOs implementing the projects; how to methodologically overcome the missing baseline information
- Levels of participation; insight vs. outside interventions
