

Tutor Evaluation of Bachelor Thesis

Author Name: Viktor Valentini

Thesis Title: Effect of disulfiram metabolites on NK and T cell cytotoxic activity against tumor resistant cell lines

Tutor Name: prof. Juan Bautista De Sanctis PhD

Criteria N.	Evaluation criteria	Points (0-5)
1	Work activity	5
2	Interest in thesis topic (frequency of discussions with the tutor, knowledge of relevant scientific literature)	5
3	Manual skills	5
4	Diligence and reliability	5
5	Evaluation and interpretation of experimental results	5
6	Independence during thesis writing	5
Total points		30

Max.
30

Comments and questions to the thesis:

The student made an effort to perform the thesis despite minor physical limitations. He wrote his thesis in English and made an important effort to understand all the details of the experimental procedure and results.

Conclusion: I recommend this thesis for defence.
